

Giant Approves PolyPro Single-Wall for Residential Power Vent Gas-Fired Water Heaters

May 1, 2014

Vacaville, CA - M&G DuraVent announced that it has obtained a key approval for PolyPro Venting Systems. PolyPro vent pipe, fittings, and terminations have been approved for use on Giant's residential power vent gas-fired water heater models: UG50-65 and UG 50-59.

When using the PolyPro venting system, the vent pipe requirements stated in the unit installation instruction – minimum & maximum vent lengths, termination clearances, etc. – apply and must be followed. Follow instructions provided with PolyPro's venting system where applicable or if requirements are more restrictive.

About M&G DuraVent

M&G DuraVent is a recognized technological leader in the venting industry. All M&G companies, including DuraVent, exclusively develop, manufacture and market a wide range of flue and vent products in aluminum, stainless steel and plastic for the HVAC and hearth industry. M&G is the largest supplier of engineered venting systems for the high-efficiency heating market in Europe for 20 years. For more information, please visit www.duravent.com.

About Giant

Giant is a Canadian manufacturer of residential, light duty commercial and commercial, electric, gas and oil-fired water heaters.
