

PolyPro Double Wall Protective Outer Metal Shell for 5", 6", and 8" Diameter PolyPro Single-Wall Gas Vent System.

The introduction of Double Wall (DW) PolyPro provides additional installation flexibility when your job requires.

DW shells are offered separately for handling pipe lengths, elbows, and appliance connections. For installation, single wall PolyPro is inserted into the metal shell, which has a support disk inside. The vent system is supported using typical means, including wall straps, elbow straps and roof or firestop supports. Vertical and Horizontal Terminations are available. Adjustable DW sections are available if needed. Additionally, you can use adapters to transition from DuraVent / Security Chimney stainless vent system, to DW PolyPro. This integration of vent systems gives you unmatched installation flexibility.

Features and Benefits

- Acts as a support system for the PolyPro pipe.
- Standard twist lock connections (locking bands are not used on the internal PolyPro).
- Field paintable and corrosion resistant zincalume.
- Non-combustible enclosure.
- Can be used for external runs when protection / insulation from the elements is desired.
- Can be used internally when certain building and fire codes apply.
