

NEW DirectVent Pro Wall Thimble for 5x8 applications

“New” DirectVent Pro Wall Thimble for 5x8 applications. Wall Thimbles allow for a complete wall pass through and firestop. Some appliance manufacturers require a greater top clearance on short runs with larger appliances. The new Wall Thimble will allow for a 3” top clearance and 1” clearance for sides and bottom from the pipe to framing. Refer to the appliance manufacturer’s installation instructions for requirements. Recommended for use with the DirectVent Pro Square Termination only, 58DVA-HC.
