

NOW AVAILABLE Ravelli Tee Adapter for PelletVent Pro.

In order to offer a secure tight fit to the exhaust outlet on any Ravelli Pellet Stove, we recommend the use of the Ravelli PVP stove adapter. The Ravelli outlet measures 80mm, which is larger than many of the other stoves on the market. This tee adapter is specifically designed to fit the outside of a Ravelli stove exhaust outlet. This will assure that smoke is conducted through the air tight inner stainless steel pipe. As always, we recommend that the tee adapter be sealed to the outlet with high temperature silicone sealant to ensure a tight connection. Available in galvalume outer only.
