

## DEALERS & DISTRIBUTORS IN ACTION

Concorde Distributing is a long-time DuraVent customer. They service hearth dealers in British Columbia and throughout Western Canada.

Giving back to the community has been a key element of Concorde Distributing's goals & mission statement since the start back in 1996, and the Abbotsford Hospice Society is the most recent beneficiary.

Up until recently, this city of 150,000 residents in the Fraser Valley had no local hospice house. That has now changed with the opening of a new 10-bed facility called "Holmberg House". Concorde stepped up to contribute a two-sided gas fireplace complete with DirectVent Pro vent system. Two of their staff members; Roland Patrick and Erik Hamalainen also assisted with the installation and start-up. This fireplace is a key focal point within the facility. One side faces the front entrance to warmly greet incoming guests, while the other side faces the visitor's room.

Holmberg House is part of a larger healthcare complex that includes the Abbotsford Regional Hospital, Canuck Place Children's Hospice, and Matthew's House, a respite facility for children with severe disabilities.
