

Locking Clip Vent Caps

Affordable, Compact, and Secure

These vent caps install quickly and easily with a secure locking clip system. Simply insert the cap into the pipe, engaging the locking clip. A click sound indicates the clip is fully engaged inside the pipe and the termination is secure.

DuraCap

The reliable DuraCap is designed with a domed top to keep out rain and leaves, and a lower skirt to deflect wind for proper draft.

- 3" - 8" diameters
- Helps prevent rain and debris from entering the vent
- For vertical installations only
- Not suitable for wood burning applications

SIZE	ORDER #	STOCK #	Cap O.D.	Height
3"	3BVDC	810017813	6"	3 1/4"
4"	4BVDC	810017902	8"	4 1/4"
5"	5BVDC	810017988	10"	5 1/4"
6"	6BVDC	810018080	12"	6 1/4"
7"	7BVDC	810018145	14"	7 1/2"
8"	8BVDC	810018212	16"	8 1/2"

Low Profile, High Wind Cap

The Duravent Low Profile, High Wind Cap is a more compact option that maintains the same functionality as the Standard High Wind Cap.

- 3", 4", 5", and 6" diameters
- Improves flue gas flow to prevent downdrafts
- Economical choice for use in high wind environments
- More compact size fits more options
