

NEW! Type B Gas Vent Connections

duravent[™]

Our new connection method with one tab to lock in position makes it easier to install and maintain for Hearth and HVAC professionals alike. This enhancement not only simplifies the connection process, but also reinforces our commitment to providing high-quality and reliable venting solutions.

- 10" and 12" diameters
- Easy installation
- No screws or bands required to connect
- Useful for factory-built gas fireplaces or gas heating appliances

Align notches

Slide together

Rotate to align seams

Press in tab to lock position
