

Type B Gas Vent Firestop Spacer 10" & 12" Diameter

duravent™

The B-Vent 10" and 12" Firestop Spacer ensures safe, code-compliant vent pipe installations through floor and ceiling penetrations. Designed so the installation of the B-Vent system maintains proper clearances while providing an easy installation for residential and light commercial applications.

Key Features and Benefits

- Maintains required clearances to combustibles which helps ensure safe installations while supporting code compliance
- Precision-fit for 10" & 12" B-Vent systems eliminates guesswork and speeds up installation
- Durable galvanized steel construction provides long-lasting performance
- Easy installation reduces time for installers
- Meets UL 441 and CAN/ULC-605 compliance

Applications

- Floor and ceiling penetrations
- Multi-story gas appliance venting
- Residential and light commercial installations
- Category I gas appliance vent systems

For Installers

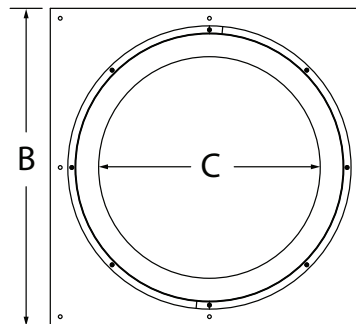

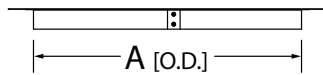

- Saves install time with a precise, drop-in fit
- Helps confidently meet clearance and firestop requirements
- High-quality construction for durability
- Limited lifetime warranty

For Homeowners

- Adds an extra layer of fire safety
- Trusted performance as part of a certified Type B Gas Vent system
- UL Listed components meet building code requirements for peace of mind
