

Decorative Sleeve

DuraTech® Premium and DuraTech® Canada

Versatile and adjustable design to finish your installation!

Duravent is proud to introduce our latest innovation for DuraTech Premium and DuraTech Canada high-temperature, insulated chimneys - the Decorative Sleeve.

Unlike traditional fixed trim parts, our decorative sleeve offers versatility with its adjustable design. Covering up to 12", this sleeve provides a seamless and decorative finish along the horizontal length of chimney in the room when passing through a non-combustible wall and through the Insulated Wall Thimble. Crafted with a metallic black finish, this sleeve provides a clean finish that completes the look of the installation.

- 6", 7" and 8" diameters
- 12" Adjustable Length
- Metallic Black Finish
- Provide a decorative finish to horizontal insulated chimney length within a room
- Accommodates up to 12"
- For use in a non-combustible wall or with an Insulated Wall Thimble
