

SUBJECT: Discontinuation of Duravent DirectVent Pro H2 Snorkels

DATE: October 17, 2022

PRODUCT: Duravent DirectVent Pro H2 Snorkels

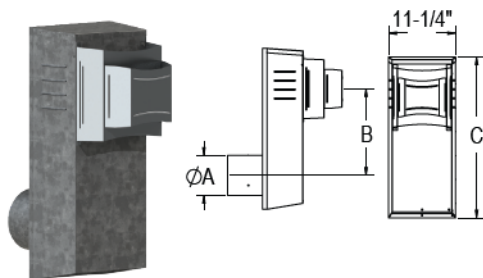

In an effort to streamline our production capabilities and to focus on the needs of our customers, please be advised that Duravent will discontinue the DirectVent Pro H2 Snorkel products effective October 17, 2022. Standard Snorkel products are still available and will continue to be offered in the DirectVent Pro product line. We sincerely appreciate our customers' support. The Duravent team is focused on and committed to providing our customers with exceptional products at a superior value.

While inventory remains available, Duravent will continue to accept orders for in-stock finished goods until December 31, 2022. Duravent will continue to honor product warranties for the duration of the warranty period.

Please contact the customer service department or your regional sales manager in the links below with any questions about other Duravent products.

Snorkel H2 Termination Cap

Use for horizontal through-the-wall termination when a vertical rise is desired in the system to meet appliance manufacturer recommended minimum heights. Do not enclose in the wall or install below grade. Provides improved performance in high wind conditions. Features an adjustable air intake and interchangeable shroud (shroud is included and required for all installations). Check with appliance manufacturer for approval and air throttle setting. Patent Pending.

SIZE	ORDER #	STOCK #	A	B	C
