

DirectVent® Pro 8x11

Building on Legacy. Engineered for Excellence.

As pioneers of direct vent technology, the Duravent Group is proud to expand this product line with the DirectVent® Pro 8x11, a premium venting solution specifically developed for the luxury gas-fired direct vent fireplaces found in today's high-end homes and upscale commercial spaces such as hotels, restaurants, and more.

When you choose DirectVent Pro 8x11, you're choosing decades of innovation, premium materials, and excellent construction.

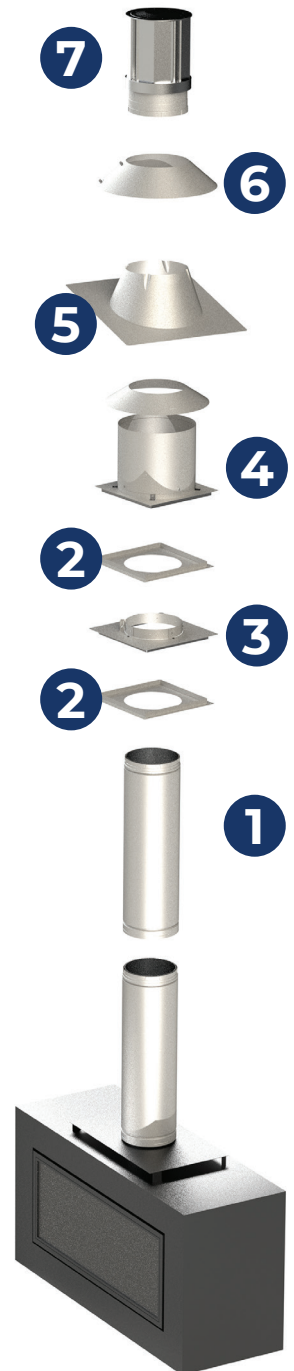

Features you can trust:

- **Laser-welded seams** - Precision engineering ensures complete system integrity
- **Hem-free design** - Streamlined construction for faster, more precise installation
- **Premium Materials**
Durable 0.016" 430 stainless steel inner pipe
Strong 0.018" galvalume outer wall
- **Tool-Free Installation** - Convenient twist-lock connections save time and reduce complexity
