

## DuraVent Approval for Modine PTC/BTC

PolyPro® single-wall polypropylene venting systems by DuraVent are now approved for use on Modine PTC/BTC Unit Heaters.

Consult the appliance instructions for details.  
Please visit [www.modinehvac.com](http://www.modinehvac.com).

Benefits of Using Polypro® vs. Schedule 40 PVC :

- Max flue gas temperatures are 230 degrees (over 50% higher than PVC)
- 0" clearance to combustibles
- No need for glues or primers to connect the vent system together
- Light weight for easy install

For current pricing and availability, please call customer service at (800) 835-4429.
