Subj: FasNSeal Ventingt Approval

To whom it may concern,

This letter is to confirm DuraVent FasNSeal and FasNSeal W2 stainless steel venting has been tested and approved for use with Montigo fireplaces where positive pressure venting components are required.

For detailed installation requirements, please refer to local codes and to the certified installation instructions supplied with both the fireplace and venting system.

Sincerely,

Archie Ylakovic B.Sc.

Testing and Product Certification Technologist
